SUMMARY

Computer Engineering graduate with hands-on experience in Java backend and full-stack web development. Skilled in Java, JavaScript, React.js, Node.js, Express.js, Spring Boot, MySQL, and MongoDB. Experienced in developing RESTful APIs, JWT authentication, SQL optimization, and full-stack applications through internship and projects. Strong foundation in OOP, Data Structures & Algorithms, and backend development.

SKILLS

Programming Languages : Python, Java, JavaScript

Frontend Technologies : HTML, CSS, React.js, Bootstrap

Backend Technologies : Node.js, Express.js, Spring Boot

Database Management : MySQL, MongoDB

Core Concepts : Data Structures & Algorithms, REST APIs, JWT Authentication

Tools & Platforms : Git, GitHub, Linux, AWS, Docker, Google Cloud Platform, Postman, Render, Vercel

INTERNSHIP EXPERIENCE

Java Developer Intern — Sanyu Infotech Pvt Ltd

Dec 2024 - Feb 2025

Pune, Maharashtra

- Developed backend modules using **Core Java, JDBC, and MySQL** for efficient data processing and application functionality.
- Optimized complex **SQL queries**, reducing query execution time by **20%** and improving application performance.
- Designed and implemented **RESTful APIs** to enable communication between frontend and backend systems.
- Collaborated with the development team to **debug, test, and resolve application issues**, contributing to stable software releases.

PROJECTS

AI Resume & Interview Platform | Full Stack Web Application

ai-resume-interview-platform.vercel.app | github.com/pratikagre/AI-Resume-Interview-Platform

- Built an AI-powered resume and interview platform using **React.js, Node.js, Express.js, MongoDB, and SASS/SCSS** to support resume analysis and interview preparation.
- Developed **RESTful APIs** for resume analysis and personalized interview-question generation, enabling efficient communication between frontend and backend.
- Implemented **JWT-based authentication** and responsive UI styling with **SASS/SCSS**, improving application security and user experience.

Employee Management System | Full Stack Web App

employee-management-1-4xde.onrender.com | github.com/pratikagre/Employee-Management

- **Built** a full-stack employee management system to manage employee information and operations using **React.js, Node.js, Express.js, and MySQL**.
- **Implemented** RESTful APIs and Role-Based Access Control (RBAC) to manage application functionality and secure user authorization.
- **Optimized** API and database operations to improve data processing efficiency and overall application performance.

Fusion Electronics | E-Commerce Website

fusion-electronics.onrender.com | github.com/pratikagre/FUSION-ELECTRONICS

- **Built** a full-stack e-commerce platform for online product management and shopping workflows using **React.js, Node.js, Express.js, and MongoDB**.
- **Developed** product management, shopping cart, and secure authentication features through RESTful backend services.
- **Optimized** frontend and backend operations to improve application performance and user experience.

EDUCATION

Jaihind College of Engineering, Junnar

2022 - 2026

BE (Bachelor of Engineering), Computer Engineering (CE) — CGPA: 7.34

Nxtwave Disruptive Technologies

2024 – 2026

Industry Ready Certification in Full-Stack Development
